ABOUT BLOCK®

BLOCK® GROUP is a successful multi-national corporation with a history of operation in many countries since 1991. We realise functionally cutting-edge complete systems for investment, with a focus on advanced technology (high-tech) and high quality environments (clean rooms). We are a development, engineering and project delivery company with an experienced group of technicians, technologists and engineers who manage and implement constructions. We offer our customers comprehensive services in project preparation, manufacture, construction and subsequent servicing. We realise constructions for the pharmaceuticals, biotechnologies, healthcare, science and research, microelectronics and automotive industries as well as for other industrial buildings utilising clean room technology.
